

Table 9 Ranking of entomological and parasitological efficacy of each one of the four method of vector control implemented (LLINs= long-lasting insecticide treated nets; ZF= insecticide-treated plastic sheeting model ZeroVector; ITPS= insecticide-treated plastic sheeting; IRS= indoor residual spraying; ma= density per trap; h= inoculation rate; Tt = total; PI= plasmodic index; GI= gametocyte index; Tt= Total).

	Entomology			Parasitology			Total	Total
Indicator	ma	h	Tt	PI	PL	GI	Tt	Tt
LLIN	4	4	8	4	4	4	12	20
LLIN+ZF	3	3	6	1	1	2	4	10
ITPS ZV	1	1	2	3	3	3	9	11
IRS then ITPS	2	2	4	2	2	1	5	9
